

1984-1988 Pontiac Fiero Northstar V-8 System

The Northstar V-8 conversion kit for the Pontiac Fiero is the ultimate in sports car performance at an affordable price. The state of the art engine and transmission package allows excellent driveability and emission compliance to the latest EPA standards. The kit has been designed for ease of installation with minimal modification to the vehicle. All the pertinent DTC (Diagnostic Trouble Codes) are retained in the PCM (Powertrain Control Module). Great care has been taken in the design and construction of all components to insure safety, strength, and durability. The use of stock motor mounts helps to reduce noise, vibration, and harshness. The base kit includes all the components needed for the installation.

NORTHSTAR

1984-1988 Pontiac Fiero Northstar V-8 System

You need one!

Pricing information

Target price for the conversion kit is \$4000.00 but will vary slightly depending on the year model and version of the engine.

Some of the modified items will be based on a swap for a good core.

We can supply the Northstar engine and transmission package installed on a modified cradle. We recommend using the latest engines available. The price for these packages will vary depending on the year model and mileage. An approximate price is \$4,000-\$6,000.

Installation information

We can do the installation of the Northstar conversion kit on your vehicle or do a complete turn key car by locating and purchasing a Fiero base car as close as possible to you choice of color and options.

Options

We will also have available some high performance options. A partial list includes the following:

1. Twin Turbocharger System
2. Custom Stainless Steel Mandrel Bent High Flow Exhaust
3. Painted Engine Camshaft Covers
4. HPC coated exhaust components
5. Transmission Oil Cooler and Lines
6. Pass Key II Security System
7. Suspension System Upgrades
8. Rear Coil over Shocks
9. Brake Upgrades
10. Wheel and Tire Packages
11. Body side panel cooling scoops
12. Engine Oil Cooler and Lines
13. Torque Restraint System
14. High performance 4340 axle set

Other performance items will be available as they are developed. If you do not see an item you would like, please ask us about it.
